**org.apache.logging.log4j:log4j-core** - Remote Code Execution (RCE)

Insights: We strongly recommend fixing this vulnerability. If it cannot be fixed by upgrading to the latest version, remove `JndiLookup.class` from the class path by running:
`zip -q -d log4j-core-*.jar org/apache/logging/log4j/core/lookup/JndiLookup.class`
For additional mitigation advice, please see our [Log4Shell remediation cheat sheet](#).
